

## AMENDMENTS TO THE SPECIFICATION:

Changes in the following text from its immediate prior version are shown with ~~strikethrough~~ for deleted matter and underlines for added information (except that the term "Coolant level in candy" was underlined in the original specification, and is thus underlined below even though it is not being added).

Please amend paragraph 00149 on pages 27-28, as follows:

[00149] The flavor used in Examples A and 1 was a lemon/lime flavor, in Examples B and 2 was a fruit/lime flavor, and in Examples C and 3 was a mint/lemon flavor. The cooling agents used and the amounts of flavor and cooling agents in the above examples are shown below in Table 4:

Table 4

	Example A	Example 1	Example B	Example 2	Example C	Example 3
Flavor	79.25	73.60	75.60	74.56	60.00	58.33
